

Please see below:

1. Increasing word limit in “Edit default answers” Multiple Short Text:

Only in several out of 30 rows, the participants often need larger space to express their thoughts or requests. In the example below, half of the text is cut-off. Is there a way out?

The screenshot shows the top of a survey form titled "Alumni Survey 2020 (Test ver 2)". Below the title are three links: "Load unfinished survey", "Resume later", and "Exit and clear survey". The main content area has a green heading "Opportunities and Support You are Looking for:". To the right of this heading is a large text input field containing a long, repetitive sentence: "I recently left my post as the Policy Director at the Washington, DC Mayor's Office. I am currently in a transition phase as I explore my next opportunity. I would like this next opportunity to be a policy analysis and implementation role and am open to pl recently left my post as the Policy Director at the Washington, DC Mayor's Office. I am currently in a transition phase as I explore my next opportunity. I would like this next opportunity to be a policy analysis and implementation role and am open to p". The text is cut off at the end. Below this text field are two more input fields: "Employer's Name:" and "Current Job Title:", both of which are empty.

2. Drop-down menu under “Edit default answers” or any other solution:

Some of our alumni use different ways of typing their countries (often with errors) which skews our categorisation (e.g. US, USA, United States, United States of America). Is there a way of avoiding this?

The screenshot shows the same survey form as above, but with a dropdown menu open for the "Country of Residence:" field. The dropdown menu lists the following options: "United States of America", "United States of America", "France", "Germany", "United Kingdom", and "United States of America". The first two options are highlighted in blue. The "Country of Residence:" field is currently filled with "United States of America". Below this field is another field labeled "City of Residence:" which is currently filled with "Sugar Land".

3. Align left column (“Edit subquestions”) as left

Currently my text under “Edit subquestions” is aligned right. Can I have it aligned left?

Please revise the following data and correct if necessary (*correct it or leave it as it is*):

First Name (*as appears on your passport*):

Last Name (*as appears on your passport*):

Email Address:

Programme:

Cohort:

Alumni Chapter Group:

My apologies for the long list of requests. Kindly please see what can be done.
I am grateful for any guidance.

Regards
Alex
